

Super Matte

Collection

Conestoga's Synchronicity Super Matte provides a low sheen finish to meet your contemporary design aspirations. The sleek style of edgebanded doors, drawer fronts and accessories are hardwearing and resistant to fingerprints, scratches, most common household chemicals and UV light fading. We think you'll agree, it's super!

With Super Matte, matte never looked so brilliant!

Super Matte

- The Synchronicity Super Matte Program features a 5° sheen matte film applied to the face of the door and drawer fronts, with matching color laminate applied to the back. Edges are banded with 1mm ABS matching edgeband.
- Super Matte products stand up to most household chemicals and the effects of moisture.
- This durable product is scratch, abrasion, fingerprint resistant and withstands the negative impact of UV rays.
- All Super Matte products are constructed with TSCA/CARB2 compliant substrates.
- Complementary products include veneer sheets, rolls of edgeband, mouldings, fillers, cut-to-size and full sheets of 19mm material.
