

The Home Office

You know what we do for kitchen and bath design...but why limit your design inspiration to just those spaces when you can go luxe throughout the home? The Home Office, for instance...a room that's becoming ever more important these days. Conestoga Wood offers the fine design and quality craftsmanship you've come to rely on for stunning kitchens and baths, now creates awesome cabinetry for home offices that get folks excited to get down to business!

A Home Office as hot as the kitchen. Now you're cookin'!

- Over 25 RTA Home Office cabinetry configurations, a wide variety of standard sizes, plus customization in height, width and depth without the outrageous upcharges! This collection of home office cabinetry can accommodate nearly any office layout, from basic to ornate.
- From traditional, to transitional, to contemporary, our variety of the industry's most popular wood species offers you limitless design flexibility.
- Stained or painted...finishes to create the home office beauty your client is looking for.
- Match our many functional features and accessories to your clients' wants and needs.
- The consistent Conestoga quality craftsmanship you've come to expect.

Design for small, medium, or larger spaces. The door styles, finishes and functional accessories we offer give you the design flexibility to create the perfect environment for homeowners to get things done, and enjoy doing them. So...let's get down to business, shall we?!
