

A Fresh Face
for your Kitchen

Guide to Refacing

Today's kitchen is the gathering place for family and friends; so why not make it a warm, inviting place to entertain? Refacing your cabinetry can breathe new life into your old kitchen, providing the latest conveniences with minimal investment. Treat yourself; put a fresh face on the heart of your home.

Renew

- 1** During the refacing process, your cabinetry will remain intact and will be surfaced with durable, real wood veneers.
- 2** Your existing doors and drawers will be removed and replaced with new doors and drawer fronts in the wood and finish of your choice.
- 3** Upgrade your worn out drawers with wooden dovetail drawer boxes, custom built to fit your existing cabinetry.
